DIOKI & REACH

REACH is a new European regulation (EC 1907/2006) that covers the Registration, Evaluation and Authorisation of Chemicals, which was established in June 2007.

Goals of **REACH** are to improve the protection of human health and the environment, while maintaining competitiveness and stimulating innovation within EU chemicals industry and to unify and replace many pieces of existing legislation that relates to approximately 30,000 chemicals.

DIOKI is committed to the highest standards of health, safety and the environment, and intends to comply with the **REACH** requirements.

We will pre-register all substances of potential interest within the allotted time frame.

As the Only Representative in EU, **DIOKI** has appointed a company **ADRIA OIL** in Milan, Italy.

For more specific information, please use a standard questionnaire prepared by CEFIC that provides information to customers about the registration of substances.
